

COMPLAINT FILED AGAINST RAILWAYS

Alleges Conspiracy of Sixty-Seven Railroads Through Traffic Association.

RAILROAD COMMISSION OF TEXAS IS PLAINTIFF

Complaint Declares That Increased Freight Rates Would Seriously Hurt Public.

WASHINGTON, Aug. 10.—The railroad commission of Texas today filed a formal complaint with the Interstate Commerce commission against sixty-seven railroads common carriers, alleging a conspiracy on the part of the defendants to suppress competition and to restrain trade in the recent increasing freight rates to complaints in Texas. The commission forward notice of this complaint to the carriers involved, and will give fifteen days to reply, the usual period for answering a complaint before the commission. The commission will file this case as much as possible on account of its widespread importance.

The complaint is signed by Allison May, chairman of the Texas commission. R. V. Davidson, attorney-general, J. H. Pollard, assistant attorney-general, and J. H. Pollard, assistant attorney-general, are the State of Texas, countering the complaint.

The complaint undertakes to compare the cost of maintenance and operation of the railroads with the actual cost of the railroads, and to show that the railroads are operating at a loss. The complaint also alleges that the railroads are operating at a loss, and that the increased freight rates would seriously hurt the public.

The complaint also alleges that the railroads are operating at a loss, and that the increased freight rates would seriously hurt the public. The complaint also alleges that the railroads are operating at a loss, and that the increased freight rates would seriously hurt the public.

BEST ACTS OF VIOLENCE WERE COMMITTED MONDAY

WINNIPEG, Aug. 10.—The first act of violence in the Canadian Pacific railway strike occurred last night, when a mob of about 100 men broke into the windows of the coaches of a passenger train between St. Boniface and Winnipeg. The mob was armed with stones and bricks, and the train was stopped. The mob then broke into the windows of the coaches, and the train was stopped. The mob then broke into the windows of the coaches, and the train was stopped.

MAN PACIFIC DECLARES DIVIDEND

WHEAT, Aug. 10.—At a meeting of the directors of the Canadian Pacific railway today, a dividend of 2 percent on preferred stock and 1 percent on common stock for the half year ending June 30 was declared. The dividend on the common stock will be paid at the same time as the dividend on the preferred stock.

Are You Troubled?

Those who suffer with distress after eating, loss of appetite, biliousness, nausea, flatulence, and other derangements of the digestive organs, should use the best means to get the stomach well and strong. Probably no other remedy will restore you to health so surely and naturally as

BEECHAM'S PILLS

Beecham's Pills immediately relieve acute dyspepsia, and are equally beneficial in chronic cases of indigestion and stomach weakness. They gently stimulate the digestive organs and have a wholesome effect upon the liver and bowels, cleansing and toning the entire digestive tract. Beecham's Pills relieve the weakened organs, establish healthy conditions, improve the general health, create appetite and

Strengthen the Digestion

In boxes with full directions, 10c. and 25c.

STRIKE SETTLEMENT IS NOW LOOKED FOR

Second Vice-President of Machinists' Union Leaves for Winnipeg.

WINNIPEG, Aug. 10.—The Canadian Pacific railway today had built a second high fence around the shops property, and General Manager Hurry wired to Montreal to have a thousand mechanics forwarded to once if possible.

It was stated that the men employed in the Canadian Pacific railway shops will walk out tomorrow morning in sympathy with the present strikers. The men are said to object to issuing stores to strikers.

The company has imported twenty-four Thiel and Pinkerton detectives to watch the movements of the strikers in the West. William Whyte, second vice-president of the machinists' union, left Winnipeg tonight for Montreal to meet with him to effect a settlement. Whyte issued a statement today denying the report that the Canadian Pacific was importing strikebreakers from the United States to replace the strikers. He killed the report by saying that the Canadian Pacific voluntarily sought work in Canada that was their own affair. Another point of contention was the fact that the machinists who walked out had by their own account deprived themselves of the right to work for the Canadian Pacific railway pension system.

Reports from the West indicate that the rolling stock is beginning to feel the strain of the strike. The labor department that a sympathetic strike by the railroad men's unions to aid the striking machinists has been suggested, would be a violation of the Lemieux act.

Railroad Notes. Col. I. A. Benton, general passenger agent of the Denver & Rio Grande, with headquarters in this city, will leave Monday afternoon for a business trip to Denver. Col. and Mrs. Benton will probably be gone about five days.

H. H. Plunhoff, chief clerk to J. M. Davis, general superintendent of the Oregon Short Line, returned Monday morning from a tour of inspection of the line of the North and Northwest.

The Salt Lake & Ogden railway did a rushing business during the morning, well filled going each way. President Simon Bamberger and wife and Dr. Baldwin went to Ogden canyon on the 4 o'clock train.

Salt Lake City will make a strong effort to obtain the new \$1,000,000 plant which is understood to be the latest interests will erect for the manufacture of motor cars. Most of the cars which are used in the city are the latest model, now manufactured at Omaha, and it is said that Hartman intends to build a plant further west. Secretary Haddock of the Manufacturers' Association of this city is now making inquiries about it, and it is expected that other business organizations will also take up the matter.

General Superintendent J. M. Davis of the Oregon Short Line sent out the following circular Monday: "To All Concerned—Effective August 12, a new 3200-foot passing track at Mile Marker 3.5, between Ogden and the late Francis is completed and is ready for use, and will be known as 'Cope'. The name is given out of respect to Mr. Francis Cope, general passenger and freight agent of the old Utah Central railroad."

FOR NERVOUSNESS

Take Horsford's Acid Phosphate. It is especially adapted for the treatment of weak nerves, disordered digestion and constipation.

S. D. REED GETS OFF BY PAYING A FINE

S. D. Reed, the chauffeur who was arrested some days ago for fast, furious and reckless driving, narrowly escaped the imposition of a full sentence in Judge Whitaker's division of the city court Monday. The silver tongue of J. W. McKinney, Reed's attorney, and the fact that Reed was training for a boxing contest, which was pulled off last Saturday, was all that prevented Judge Whitaker from sending Reed to jail. When he appeared before Judge Whitaker, Reed pleaded guilty and his attorney then made an eloquent appeal for leniency, upon the ground that Reed was training for the race and that he did not realize what he was doing. At the conclusion of Mr. McKinney's argument, Judge Whitaker said that in view of the circumstances he would not send Reed to jail but would let him off with a fine. A fine of \$25 was then imposed, which Reed paid.

PRACTICAL WORK ALONG GOOD ROADS MOVEMENT

In connection with the movement which has been started for good roads throughout the State, Salt Lake county has started work and expects to show good results within a short time. A stone crusher was started Monday morning on material with which to improve the condition of the road between St. George and Hatch. A good, heavy coat of gravel is also being placed on that part of the road between St. George and Hatch. A force of men also will be started on the road from Pleasant View to Hatch. Other improvements also will be taken up as soon as possible.

Subcommittee Appointed.

The Federation of Labor general committee, in charge of the Labor day program, has appointed the following subcommittee: A. Martin, chairman, retail clerks; A. Burkhead, clerical workers; J. L. Morgan, machinists; C. H. H. Sphar, inside workers; L. Galeazzi, pressmen.

Tickets—Karl Orth, chairman, tailors; M. Shuman, carpenters; Sid Chalkier, painters; C. Arne, tailors.

The general committee also announces that meetings will be held every Sunday until the date of the celebration, September 7.

SAMUEL DOWSE SETS ALL RUMORS AT REST

Continued from Page One.

was done with the knowledge and consent of Joseph Nelson, and the money was taken during the later part of September, October and up to the 12th of November, at intervals of every few days. Upon Jan. 29th, Garrett left Salt Lake for New York City, stopping off at Chicago, arriving in New York upon the 3rd of February.

"Upon the 4th of February Joseph Nelson went to Mr. Joseph Smith the head and President of the Mormon Church and made a full confession of the robbery of the bank."

"Joseph Nelson at the time and while he was connected with the Utah National Bank, had an account with the Commercial Nat. bank of this city, but most of the transactions mentioned in this report, was done in cash, and not checks."

"At the present time, there is the sum of \$25,000.00 which is in the hands of the Mormon Church, and which Joseph Smith has the whereabouts of same, and this is part of the money taken from the Utah National Bank."

"The money expended in all of the above deals and transactions, was taken from the strong box of the Utah National Bank, that is not directly from the treasury fund, but was taken by Strong from the working funds of the bank and then from the Reserve to replace the money taken from the bank."

"This is not a final report but can give more if desired, the details of the robbery of the bank, Utah, Mar. 13, 1908."

Dowse's Signed Statement.

Upon having his attention called to the foregoing report in the Smoot newspaper, Mr. Sam Dowse dictated the following statement, which he requests the Tribune to print in reference to the charge that he was in the employ of this newspaper, and in denial of the assertion that the reproduced report upon the robbery was made to The Tribune.

"A day or two after the fact of the robbery of the Utah National bank was made public, a combination of circumstances put me in possession of certain evidence which I thought had considerable bearing upon the case. I happened to mention the matter to Attorney Henry Lund, and he at once desired me to make a statement incorporating the evidence I had gathered. This I declined to do at that time, saying to Mr. Lund that I was not desirous of mixing up in the matter any way; that I was in the business here and had no reason to involve myself in the controversy then on as to who were the perpetrators of the apparent robbery."

"At different times following my conversation with Mr. Lund I was approached by several employees of the bank and their friends, all of whom desired me to go on the case and in solving the mystery surrounding it, if possible. They offered me fairly good pay for my services, but I insisted to them that I did not pretend to be a detective; that I had once acted as deputy sheriff in this country; but that had constituted my sole occupation as dealing with offenders against the law."

"Finally these importunities ceased; but it was not long before I was asked by Mr. Lund to call at his office and meet three of the directors of the bank. I went there and found Mr. Lund, Mr. Fitzgerald and Miller of the Utah National."

"These gentlemen requested me to recite my findings in the case, and again I protested that I did not want to be mixed up in it. They, too, wanted to engage me to assist in apprehending the guilty parties, and again I declined to be so employed. I suggested to these gentlemen that the better plan would be what I thought would be a sufficient amount of reward to bring desired results and I told them that they should offer ten thousand dollars. They thought this was an extremely high figure, but I insisted that it was a sufficient amount of reward to bring desired results and I told them that they should offer ten thousand dollars. They thought this was an extremely high figure, but I insisted that it was a sufficient amount of reward to bring desired results and I told them that they should offer ten thousand dollars."

"Some time afterwards I discovered that several copies of my report were in the hands of different persons about town. Where they came from or by whom given out, I have no knowledge, as the report which I made to Mr. Cutler is the only one that has ever left my hands. Presumably it was one of these copies that Mr. Smoot's newspaper got hold of."

What He Told Armstrong.

"About ten days ago Mr. Burl Armstrong called me by telephone and asked me to give him some facts relative to a suit I was about to file against The Tribune, saying that he had been informed that such was my contemplation. I told Mr. Armstrong, who said he was inquiring in behalf of Mr. Smoot's paper, that he was not against most unprincipled as I had no account against The Tribune in mind at that time, nor had I ever contemplated such action. I told him distinctly that I had never had any dealings with The Tribune in this matter; that I had no bill against The Tribune, and that if I had one I would present it to The Tribune and it would doubtless be promptly paid upon presentation. I gave Mr. Armstrong to understand without possibility of misapprehension that I had never been employed by The Tribune, that my only conversation with Mr. Seftin in the bank case was casual, as it would have been between myself and any other interested citizen, and inasmuch as everybody was talking of the case at that time, there was no more significance in the conversation between Mr. Seftin and myself than there was in any other discussion of the matter between any other two citizens."

"Finally, I wish to say, for the information of the public and the newspaper that I have never been an employee of The Tribune in any sense whatever; that I made no report to The Tribune concerning the bank robbery; that the only report I ever did make upon that case was made in response, as above recited, to one of the directors of the Utah National bank. These things being true, I trust that this statement will be accepted by the public, and that citizens will credit it above any and all rumors in this matter that have been or may be set afloat by persons who are totally unacquainted as to the facts."

"SAMUEL DOWSE."

No Booze at Hand; Takes Money. It developed Monday that while the back door of the Del Wilson bar at 35 East Second South street was carelessly left standing open a thirsty traveler entered Sunday with visions of flowing fountains, that, being disappointed in finding the place dry and deserted, he opened the cash register and pocketed \$20.00.

Weather Quite Cool, BUT FEW REALIZE IT

Storms on the Way, and the Heat Wave May Have to Hike.

MONDAY'S TEMPERATURES.
Maximum 82 degrees
Minimum 64 degrees
Average 73 degrees

According to the official report, Monday was the coolest day experienced by Salt Lake since the warm weather began, the maximum temperature being only 82 degrees, but owing to the high percentage of humidity, citizens at large would not be very apt to believe it. The greater part of the day was close and sultry, and the absence of the customary summer breeze made it almost impossible to obtain a breath of fresh air, in spite of the comparatively low temperature. It is probable that it will be more comfortable today, however, as Dr. Hyatt says there is going to be more stormy weather.

The barometer was below the normal over nearly the entire country Monday, with lowest air pressure over Idaho and Montana, and comparatively high pressure over the Pacific, Gulf and Atlantic States. These conditions caused showers or thunderstorms over portions of Utah, Arizona, California, Nevada, Colorado, New Mexico, Mississippi and Ohio valleys, Lake region, and Atlantic States. The low barometric pressure over this section will cause showers Tuesday in this locality.

Monday's record at the Salt Lake City station of the weather bureau for the twenty-four hours ending at 6 p. m. was as follows:
Temperature at 6 p. m., 73 degrees; minimum temperature, 62 degrees; mean temperature, 72 degrees, which is 5 degrees below normal.

Total deficiency of temperature since the first of the month, 8 degrees.
Accumulated deficiency of temperature since January 1, 228 degrees.
Total precipitation, 15.1 inch.
Total precipitation since the first of the month, 81 inch, which is 61 inch above normal.

AMUSEMENTS

IN SALT LAKE THEATERS
ORPHEUM THEATER—Advanced vaudeville. Matinee, 2:15; evening, 8:15.
LYRIC THEATER—Campanella. Talking moving pictures. Matinee, 2:30; evening, 8:30.

No better bill was ever offered vaudeville patrons than that being presented at the Orpheum this week. The farce of Edna Phillips and her clever company, the De Haven sextette, the Kirksmith sisters, Leipzig, Bluffard and Carter, and the comedy duo of Portland, Or., Helena and Josephine, St. Louis and Little Rock, Mo., and San Francisco, Los Angeles and Spokane, Wash.

At the Press club Monday afternoon, Leipzig, the royal conjurer who is presenting an act at the Orpheum this week, gave a performance for the benefit of the newspaper fraternity. His feat with cards was marvellous and the things he could do with the pasteboards would be almost beyond belief unless one saw them. He did a number of tricks with paper and with a goblet that were as mystifying as were the tricks he did with cards. Mr. Leipzig is a brother of H. A. Leipziger of the Freed Furniture and Carpet company in this city. He came here direct from Europe, where, during the past year, he appeared by royal command before the King and Queen of England, the Prince and Princess of Wales, and the King and Queen of Spain. He has, in fact, all of the acts, are headlines, and he will be at the Orpheum all the week.

Will Attend Convention.
George S. McAllister, president, and Lon J. Haddock, secretary of the Manufacturers' and Merchants' association will attend the fourth annual convention of the Utah Bed Merchants' association, which is to be held in Spanish Fork, Aug. 11. Special trains will be run over the different railroads and a number of them will be at the Orpheum all the week.

Sleeplessness
Sleeplessness is a result of exhausted nerve force. You must have sleep—it is nature's rebuilding period. It is the period in which she stores up strength and vigor. You will sleep well and awaken fresh, if you take Dr. Miles' Nervine. It brings sleep by soothing the tired nerves. Its invigorating effect is felt throughout the entire system.

"I used Dr. Miles' Restorative Nervine for some nervousness brought on by over-exhaustion. It soothed and strengthened my nerves. It enabled me to get restful sleep which I was unable to get before taking the Nervine. For nervous troubles I know of nothing that can equal it. If first bottle fails to benefit, money back."
